**IB Diploma Programme Certified Teacher:** (Biology, Maths, and Environmental Systems and Societies)

**IGCSE and A-Level Certified Instructor:** (Biology, Maths)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past 10 years, I have had the pleasure of teaching and mentoring students from diverse backgrounds, with a focus on IGCSE, A-Level, and IB curricula. My journey as an educator began in a small classroom, where I discovered my passion for making complex scientific concepts accessible and engaging. Since then, I have taught Biology, Science, and Maths at various levels, working closely with students to help them grasp difficult topics and develop a deep understanding of the material.

My approach to tutoring is student-centered, focusing on the unique needs and learning styles of each individual. I believe in creating a supportive and interactive learning environment, where students feel comfortable asking questions and expressing their ideas. Over the years, I have developed a range of teaching strategies and resources that cater to different learning preferences, from visual aids and hands-on activities to problem-solving sessions and exam preparation.

Many of my students have achieved top grades and successfully gained admission to prestigious universities. I take great pride in their successes and continue to refine my teaching methods to ensure that every student I work with reaches their academic goals.
